

K-Love radio at 91.9 FM provides music and DJ's with a positive message. I don't have to worry about what my family may be exposed to. There is no worry of inappropriate language or situations by the DJ's or in the music lyrics. When we travel, it is available in many areas around the country. Loss of the local station due to a LPFM station would leave a huge void in our ability to access contemporary Christian music. Other Christian radio stations in the area include a lot of non-music programs, which my kids do not listen to.
